

PETAR TRAJCHEVSKI

WORK EXPERIENCE

Business Intelligence Developer at Data Masters

- I was a part of the Telekom team, working on the DWH system, additionally contributing to the Telekom Data Lake Team - which is building a modern on-premise cloud data system.
- Preparing and transferring data from source systems to the DWH, ensuring data accuracy and integrity.
- Managing the ETL (Extract, Transform, Load) process to optimize data processing and minimize downtime.
- Collaborating with cross-functional teams to identify reporting needs and creating tailored reports using Excel and IBM Cognos.
- Implementing Toad for Oracle to manage and query our Oracle database efficiently.
- Utilizing Linux (shell) for file injection into the system, ensuring smooth data transfer.
- Skills: Business Intelligence (BI) · Oracle SQL Developer · Extract, Transform, Load (ETL) · Data Warehousing · Microsoft Excel · IBM Cognos Analytics
